

Introduction

Quickmeal ordering system that I am proposing here, greatly simplifies the ordering process for both

the customer and the restaurant. System presents an interactive and up-to-date menu with all available

options in an easy to use manner. Customer can choose one or more items to place an order which will land

in the Cart. Customer can view all the order details in the cart before checking out. At the end, customer

gets order confirmation details. Once the order is placed it is entered in the database and retrieved in pretty

much real time. This allows Restaurant Employees to quickly go through the orders as they are received

and process all orders efficiently and effectively with minimal delays and confusion.

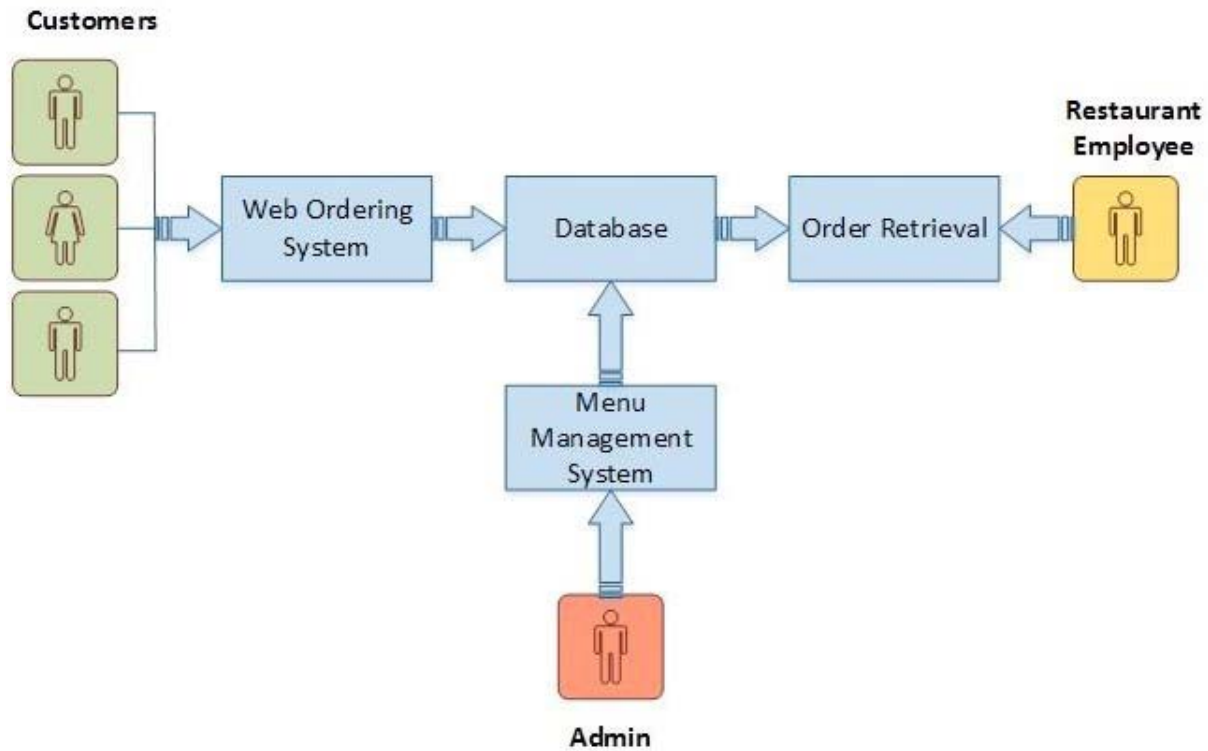

Benefits

- 1.Easy to order food in online
- 2.Saves time
- 3.Better customers data
- 4.The convenience of mobile ordering

Defining Our System Basic Requirements

- Create an account.
- Manage their account.
- Log in to the system.
- Navigate the restaurant's menu.
- Select an item from the menu.
- Add an item to their current order.

- Place an order.
- View order placed.

High Level Requirements

ID	Description	Category
HR01	User shall be able to order their food	Technical
HR02	User shall be able to view all selected food	Technical
HR03	User shall be able to cart food	Technical
HR04	User shall be able to produce total amount	Technical
HR05	User shall be able to select hotels and food	Technical
HR06	User shall be able to easily exit from screen	Technical
HR07	User shall be able to order after signup page	Technical

Low level Requirements

ID	Description	Category
LR01	First page will display options 1,2,3 for signup,login,exit respectively,any number or characters other than 1-3 are invalid	Technical
LR02	Able to order with help of full name,email,password and mobilenumber	Technical
LR03	Their food will be allotted by the customer itself	Technical
LR04	Able to display record with all information after adding into cart	Technical
LR05	System will save records the files	Technical
LR06	Exit screen easily	Technical
LR07	After exiting, message is prompted that all records are saved	Technical
